

An initiative of
Wisdom Educational Institutions

YOUNG
SCHOLARS
LEARNING CURVE

ABOUT US

Young Scholars is a venture of Wisdom Educational Institutions. The school is well equipped with all the modern amenities, technologies and state of the art facilities. Young Scholars is committed to create the best possible educational experience for the development of mind body and soul of a child. It is one of the fastest growing School chain. In a short period of time we have spread our wings across 4 districts with 10+ centres and 3000+ students.

Young Scholars is committed to provide education in international standards for the rural population. It is your child's first step to a bright future. We believe that education is a tool that enables the students to do their work in their own way. A highly educated and qualified team of edupreneurs are working tirelessly to ensure quality education.

YS

VISION & MISSION

-  We believe in learning by doing and learning by living.
-  Our vision is to nurture every child to be responsible, successful, creative individuals committed to be an ideal citizen in the society.
-  In keeping with the moral, social and cultural values young scholars will be a centre for educational excellence.
-  We intend to take education beyond classrooms.
-  Our mission is to provide joyful learning environment for the overall development of a child.

**Education is not preparation for life,
education is life itself.**

karate, art, music, dance
and cultural activities

Well equipped library
to cultivate the habit of
reading from early age.

A highly skilled,
experienced and
well trained faculty

Emphasis on
personality
development and
discipline of students.

ACTIVITIES

Aim of our education is, a child should not accept the ready made ideas of others, it is expected of them to acquire all such knowledge and skills to solve the problem.

Our co-curricular and extra curricular activities are designed in a way so that they shall think and apply what they have learnt in the classroom.

Educational toys, play area, sand pit, educational field trips and other recreational facilities.

Celebration of national and religious festivals to impart the social and moral values in the early stages of childhood.

Every child will get an opportunity to showcase their talent in the events organised throughout the year.

Regular coaching classes for karate, dance, singing, yoga and art classes will be held regularly.

Recreation is not the product of education but education is the outcome of recreation.

RELATIONSHIP WITH PARENTS

Nurturing a child is a joint responsibility of both the school and parents. So we expect complete cooperation and active participation when expected by school.

Orientation programmes for parents which will educate the parents on psychology and behaviour of a child.

We are always looking for new ways to involve parents in the life of the school since the home school-partnership is essential for the complete education.

OVERALL DEVELOPMENT OF THE CHILD

Dedicated helpline to clarify the doubts of parents and to accept the complaints if any.

Training for parents on how to follow the curriculum, study materials and other activities conducted in the school.

RELATIONSHIP WITH CHILDREN

- We believe that students and teachers should be partners and guide them in their quest for knowledge.
- At Young Scholars a child will love to learn and acquire knowledge through various indoor and outdoor activities.
- Homley environment with caring teachers and supporting staff.
- Innovative methods of teaching which will grab the child's attention.

the  best teachers teach from the heart not from the book.
